Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claims 1-84 are pending in the application.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11 and 30-84, drawn to the compounds, compositions and method of use of the compounds of formula I, where A in formula I is benzo forming a 5H-dibenzo[b,e][1,5]diazepine ring.

Group II, claim(s) 1-6, 12-20 and 30-84, drawn to the compounds, compositions and method of use of the compounds of formula I, where A in formula I is thieno, forming a 10H-theino[2,3-b][1,5]benzodiazepine ring.

Group III, claim(s) 1-6, 21-26 and 30-84, drawn to the compounds, compositions and method of use of the compounds of formula I, where A in formula I is thiazolo, forming a 4H-thiazolo[5,4-b][1,5]benzodiazepine ring.

Group IV, claim(s) 1-6 and 27-84, drawn to the compounds, compositions and method of use of the compounds of formula I, where A in formula I is benzothieno, 6H-[1]benzothieno[2,3-b][1,5]benzodiazepine ring.

Group V, claim(s) 1-6 and 30-84, drawn to the compounds, compositions and method of use of the compounds of formula I not embraced by Groups I-IV as set forth above.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I-V are different significantly in chemical structures. They are consequently separately classified in the U.S. Patent Classification System and require separate searches in the

Chemical literature. None of the prior art considers these groups as functional equivalents. Each group can support a patent. One does not require the other for their use. If, say, the 10H-theino[2,3-b][1,5]benzodiazepine of Group II, were anticipated, applicants would not acquiesce in the objection of any of the Groups I, III, IV or V there over or vice-versa and, thus, they are not linked to the same or corresponding special technical features.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Tentative election of a single species within the elected group is further required.

If Group V is elected further restriction may be required.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of

Art Unit: 1624

record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brenda L. Coleman whose telephone number is 571-272-0665. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James O. Wilson can be reached on 571-272-0661. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
